

FORCHE Mbungai Francesco

PROFILE

Motivated and talented full-stack developer, upcoming software engineer with a strong educational background and a passion for building innovative solutions. I am seeking an opportunity to kick-start my career and positively impact the web development field by applying my skills and learning more as I go.

PROJECTS

Portfolio

Code : Porfolio2.0

Developed my personal portfolio website using React and Tailwind CSS to showcase my projects and skills. Focused on clean design, responsive layout, and smooth user experience.

REST Countries API Web App

Code : Country-Search

Source :Frontend Mentor

Developed a REST Countries API web app using React, TypeScript, and Tailwind CSS. My first React project, where I learned API integration, responsive design, and component-based development.

EXPERIENCE

Web Development (Dev) Tutor at TIC Bootcamp, Yaounde

June - August 2024

Gave web development lessons, HTML, CSS and Javascript (JS) to high school students for a month and a half.

Web Dev Internship at TIC, Yaoundé

June - Juillet 2024

Interned at Tech Inovation Center (TIC) as a front-end developer, my first experience as an actually developer in a company. Learnt alot in terms of best practices and code structure.

Software Engineering Internship at Afriland, Yaounde

May - August 2025

Interned at Afriland First Bank as a software engineering intern, working on an OCR-based document processing system. Improved my React skills, along side with backend in Python and gained experience in API integration and enterprise development.
